Note: This is just a sample of all that you can get from your florist in each package with standard flowers. You can revise these packages in any way you would like. The type of flower you choose will change the cost of these packages. Example: Peonies are much more expensive than carnations. Please discuss your floral options with the florist at the time of your meeting - they can give you pricing on each type of flower to keep you within your budget if needed. The cost paid to the florist is simply a floral credit. Anything over your contracted amount can be paid directly to the florist.
